STATIM[®], the world's fastest autoclave
from start to sterile

Autoclaves

Identifying the need for an ultra fast, compact sterilizer for reusable veterinary, dental and medical instruments in the early 90s. One of the great infection control innovations of the 20th century: STATIM.

Designed to sterilize in a fraction of the time compared to traditional autoclaves (6 minutes vs. 60 minutes), STATIM reduced the quantity of expensive instruments needed as STATIM enabled practitioners to sterilize on demand. STATIM remains one of the quintessential innovation in Sterilization to day.
